DAHER

THE ULTIMATE

speed machines

As the world's fastest single-engine turboprop aircraft, Daher's TBM 910 and TBM 930 attain jet-like speeds, yet are simple to fly and maintain. Equipped with state-of-the-art integrated flight decks (Garmin's G1000 NXi in the TBM 910, and G3000 version for the TBM 930), they navigate the skies effortlessly at 330 kts, climb smoothly to FL310, and travel up to 1,730 NM.

With Daher's all-inclusive maintenance program and a five-year warranty, the ultimate combination of reliability, comfort and performance is a reality

ELITE SIMULATIONS SOLUTIONS

ELITE Simulation Solutions is a global provider of IFR training software, flight controls and flight training devices. ELITE build and support FAA and JAR certified trainers and offer custom programming to both private and government entities. Our company is the sole authorized representative of ELITE Simulation Solutions AG in India, which is a Swiss company renowned for manufacturing the Flight Training Devices (FTDs)/FNPTs (Flight & Navigation Procedural Trainer) for fixed and rotary wing simulators respectively.

Our simulator is FAA (USA), JAA (Europe), CAA (UK) and CASA (Australia) approved. A good number of simulators has been installed and in use in abroad and India with many. Hence, it has also been certified by Directorate General of Civil Aviation (DGCA). Our simulator is not only required for IR rating but it has also been authorized by FAA(USA) for PPL, CPL, ATPL training under Title 14 Code of Federal Regulations Part 61 and 141. In our product list, we have variety of simulators ranging from Desktop trainer to Multi Crew Cooperation (MCC) trainer. We offer cost effective, versatile flight training devices and it includes:

- PC ATD/Basic Aviation Training Device (BATD).
- Advanced Aviation Training Device (AATD).
- Basic Instrument Training Devices (BITD).
- Flight & Navigation procedures trainers –FNPT I, II, II MCC.
- Helicopter Training Devices – FSTD, FNPT II.
- Flight Training Devices (FTDs).

ADACEL TRAINING SIMULATORS

Adacel is the premier supplier of simulators for the training of ATCs in both civil and defense environments and for research, planning and modeling of air traffic procedures. As AAI's supplier of 16 Non Radar Procedural ATC Simulators, Adacel is a world leader in ATC Simulation with customers such as FAA, or 7 major ANSP in Europe & premier supplier of air traffic control simulation solutions, advance simulation & control systems for civil & defense. Company operates in the Global Aerospace Systems market including Operational Air Traffic Management, Airport & Air Traffic Control Training & Airborne Vehicle Systems.

- ICE (Intelligent Communication Environment).
- Part Task Trainer Tower (PTT).
- 2 suites Radar Simulators.
- 240 Degree Tower Simulator LCD.
- 270 Degree Tower Simulator LCD Portrait mode.
- 360 Degree Tower Large Rear Projection Simulators.
- MaxSim Simulator.
- ATCiB .
- Flightline Driving Simulator .
